

The city of UNESCO Associated Schools

ESD that is proceeded in Omuta City

All the municipal schools in Omuta City are UNESCO Associated Schools!
 In January 2012, all the elementary schools, junior high schools and a special needs education school joined the UNESCO Associated School. In Omuta, the whole town-schools, families and communities cooperate each other to promote "ESD."

○ The Department in charge

In each school, there's a person (teacher) in charge of "UNESCO Associated School", and have various workshops. We also combine ESD into a school curriculum.

○ Omuta City ESD Promotion Headquarters

"Omuta-shi ESD Promotion Headquarters" is in the city office, and our city is promoting ESD.

○ Omuta City ESD promotion council

"Omuta ESD Council" is organized by individual, communities, or private organizations.

 形成し、ESD(持続可能な開発のための教育)を推進します！

ESD catchphrase in Omuta City

E → forever
S → to the wonderful city
D → from what is possible

E → I will continue forever
 S → for the wonderful city Omuta
 D → Thinking what I can do, learning to act

Each school is working on ESD with various themes

World Heritage Learning

Miike Port

Regional learning

Environmental learning

With a theme of World Heritage, region, environment, or welfare, students learn about their familiar subjects. By learning such subjects, they feel the value of their hometown, and they can think and act as a part of their communities.

Observation of tideland of Ariake Sea

Observation of a river that goes to the sea

Welfare learning

Ocean Festival

ESD through the sea ~ Marine education ~

In October, we reached on an agreement on a marine educational promotion with the University of Tokyo, Marine Alliance Ocean Education Promotion Research Center. We promote marine education with three model schools- Amanohara Elementary School, Tenryo Elementary School, and Minato Elementary School. We promote the marine education through the Miike Port and Ariake Sea, the World Heritage.
